Pozos, Santa Ana
Finca 1-2•••••-000

LISTING EDITION

REPORT ID

TR-0000-0004

PREPARED FOR

The owner, before listing

WORK PERFORMED

12 to 13 October 2026

ISSUED

14 October 2026

01 Scope and limitations

EDITION: **LISTING EDITION** · COMMISSIONED BY THE SELLER · SECTIONS 3, 4 AND 5 INCLUDED · SECTIONS 6, 7, 8 AND 9 NOT INCLUDED

This report states what the public record said about the property named above, on the dates stated in each section. It was commissioned by the owner or the listing agent before the property was offered, and it is intended to be shown to prospective buyers.

> **THE FEE DOES NOT DEPEND ON THE ANSWER**
>
> A Listing Edition costs the same as a buyer-commissioned Records Edition, and the work is identical. THE REPORT is paid for the verification, not for what it finds, takes no commission on any sale, and has no stake in whether this property sells.

This is not a legal opinion and does not replace review by a licensed Costa Rican attorney. It is not a valuation, not an inspection, and not an endorsement of the property. It does not say whether the property is a good buy or suitable for any particular person. Where a section was not purchased or could not be

completed, that is stated in the section rather than omitted, and the absence of a finding is not a finding that no issue exists.

Records change. A finding accurate on the date it was pulled may not describe the position today. A buyer relying on this report is free to commission their own verification, and nothing here is intended to discourage that.

> **ABOUT THE FIGURES IN THIS SAMPLE**
>
> Values, dates and names here are illustrative and have been redacted or replaced. An issued report carries the actual values, the statement each one came from, and the date that statement was pulled.

---

02 How this copy may be used

STATED ON THE FACE OF THE REPORT SO THAT NO RECIPIENT HAS TO ASK

REPORTED

The seller may share this freely. The owner or listing agent who commissioned this report may reproduce and distribute it, complete and unaltered, to any prospective buyer, and may link to it from the listing. No permission is needed for each sharing and THE REPORT is not notified when it is shared.

Any recipient may confirm it independently. This report is published by THE REPORT at a permanent address. Anyone holding a copy may check it against that version using the report ID, at no cost and without contacting the seller or the agent.

> **ALTERATION VOIDS THE PERMISSION**
>
> The permission above covers complete, unaltered copies only. Editing, redacting, re-typesetting, or removing or changing any finding, date, source, limitation, report ID or page marking ends it immediately. Where a copy differs from the published version, the published version governs and the differing copy has no standing.

This section exists because a report the seller paid for is worth less to a buyer than one the buyer can verify. Saying so on the report itself is what makes it worth showing.

---

03 Property identification

IDENTIFIED FROM THE REGISTRY NUMBER SUPPLIED BY THE CLIENT AND CONFIRMED ON **12 OCTOBER 2026**

REPORTED

FINCA / FOLIO REAL

1-2•••••-000 (redacted for this sample)

PROVINCE / CANTON / DISTRICT

San José / Santa Ana / Pozos

REGISTERED AREA

Area as recorded on the folio real, stated in m²

HELD BY

A Costa Rican sociedad anónima (name and cédula jurídica redacted)

PLANO CATASTRADO

SJ-•••••••-•••• (redacted)

COMMISSIONED BY

The registered owner, through the listing agent

The property was identified from the registry number held by the owner, which is the ordinary case on the seller side and is faster than the listing-link match a buyer usually starts from.

04 Title and registry standing

SOURCE: **REGISTRO NACIONAL, BIENES INMUEBLES** · CHECKED **12 OCTOBER 2026**

FINDING RECORDED

The registered owner on the date checked, the instrument under which title was acquired, and the date that instrument was recorded.

Charges appearing against the finca on the date checked: one mortgage in first rank in favour of a Costa Rican bank, recorded with its date and principal, and one annotation. Each is reported with the date it was entered and the party recorded.

> **A FINDING IS NOT A DEFECT**
>
> A mortgage on a listed property is ordinary and is usually released at closing. It is reported because it is on the register, not because it is a problem. This report does not characterise findings, and a seller showing this report is showing the record, not a verdict on it.

No usufruct, habitation right or recorded easement appeared against the finca on the date checked. That is stated as nothing appearing on that date, not as a guarantee that nothing exists.

05 Corporate standing

SOURCE: **REGISTRO NACIONAL, PERSONAS JURÍDICAS** · CHECKED **13 OCTOBER 2026**

REPORTED

Title is held by a company. Reported here: the cédula jurídica, the company's status in the register, the legal representatives recorded and the powers held by each, and whether the company is current on its corporate filings and the annual corporate tax.

Whether a representative can sell alone or only jointly is a matter of the powers recorded, and those powers are reproduced as recorded. For a buyer, this is the section that answers whether the person signing can actually sign.

> **LIMIT OF THIS SECTION**
>
> Beneficial ownership is filed in the RTBF register, which is not publicly accessible. This report cannot state who ultimately owns the company behind the title, only what the public corporate record shows.

---

06 Tax standing

SOURCES: **MUNICIPALIDAD DE SANTA ANA**, **HACIENDA TRIBU-CR** · CHECKED **13 OCTOBER 2026**

REPORTED

Municipal property tax account for the finca: the periods shown as paid, any period shown outstanding, the amount on the municipal statement, and the date of the statement relied on. All periods were shown paid through the current quarter on the statement dated 13 October 2026.

National obligations recorded against the holding company in TRIBU-CR, including the annual corporate tax and the status of the company's own filings.

> **WHY A SELLER ORDERS THIS EARLY**
>
> Unpaid municipal periods attach to the property rather than to the person who incurred them. A seller who confirms the account is current before listing removes a question a buyer would otherwise raise during diligence, when raising it costs time.

---

07 HOA or condominium financial health

NOT INCLUDED IN THIS EDITION

NOT INCLUDED

This section is part of the Full Edition. It was not purchased for this engagement, so the condominium's finances were not examined and nothing here should be read as a finding either way.

08 Permit compliance

NOT INCLUDED IN THIS EDITION

NOT INCLUDED

This section is part of the Full Edition. Construction permits, CFIA seal verification and municipal Control Constructivo records were not examined for this engagement.

09 Neighborhood and zone conditions

NOT INCLUDED IN THIS EDITION

NOT INCLUDED

Zone and neighborhood work is part of the Area and Full Editions. No zone work was performed for this engagement.

10 Findings flag log

EVERY ITEM RECORDED DURING THE WORK, IN THE ORDER FOUND

> One mortgage in first rank is recorded against the finca in favour of a Costa Rican bank, with the date and principal as entered.
>
> Section 04 · Recorded 12 October 2026

> One annotation appears on the folio real. The register does not state its nature, and the underlying document was not obtained as part of this edition.
>
> Section 04 · Recorded 12 October 2026

> Ultimate ownership of the holding company could not be established, as the RTBF register is not publicly accessible. Recorded as an open question, not as a problem.
>
> Section 05 · Recorded 13 October 2026

The log is printed in full on a Listing Edition exactly as it is on a buyer-commissioned report. A seller cannot ask for an item to be removed, and that is the reason the report is worth showing. Where nothing is recorded, this section says so rather than being left blank.

11 Delivery manifest

EVERY SOURCE CONSULTED FOR THIS REPORT, WHETHER OR NOT IT RETURNED ANYTHING

SOURCE	WHAT WAS REQUESTED	DATE	RESULT
Registro Nacional, Bienes Inmuebles	Folio real, charges and annotations	12 Oct 2026	Returned
Registro Nacional, catastral map	Plano match to registry record	12 Oct 2026	Returned
Registro Nacional, Personas Jurídicas	Corporate status and representation	13 Oct 2026	Returned
Municipalidad de Santa Ana	Property tax account statement	13 Oct 2026	Returned
Hacienda, TRIBU-CR	National tax obligations	13 Oct 2026	Returned
RTBF beneficial ownership register	Ultimate ownership	13 Oct 2026	Not publicly accessible

A source that returned nothing, or that was not accessible, is listed anyway. What was not available is part of what this report tells you.

About this sample

This is a redacted sample, published so that anyone can see the format and the standard of evidence before commissioning anything. It is not an issued report, it describes no real engagement, and the figures in it are illustrative.

An issued report carries a report ID in the TR-YYYY-NNNN form and is published by THE REPORT at a permanent address. Anyone holding a copy may confirm it at jotapropertiescr.com/verify using that ID, without permission from whoever supplied it. Where a copy differs from the published version, the published version governs.

Prepared independently. No commission is taken on any transaction, and THE REPORT has no stake in whether a property sells. Use of any report is governed by our Terms of Service. To commission one, start here.
